Karunya INSTITUTE OF TECHNOLOGY AND SCIENCES
(Declared as Deemed to be University under Sec.3 of the UGC Act, 1956)
MoE, UGC & AICTE Approved
NAAC A++ Accredited

MINDKRAFT 2026

COMPUTER SCIENCE AND ENGINEERING DEPARTMENT
Ms. Sneha George

1. Event Name : The Last Gate: Hawkins Cyber Quest

- **DESCRIPTION :**

Upside Down Protocol is a Stranger Things–themed technical event where participants solve challenges in an interactive web-based 2D and 3D environment. The event tests practical skills in networking, debugging, and cryptography through time-bound tasks that encourage problem-solving, analytical thinking, and teamwork.

- **1. Networking Challenges**
  Participants analyze simulated network setups, trace data flows, identify misconfigurations, and optimize connections. Tasks cover routing logic, IP addressing, and secure communication practices, strengthening understanding of real-world network infrastructures.

- **2. Debugging Challenges**
  Players work with intentionally faulty systems or code snippets to detect and correct errors. This enhances logical reasoning, attention to detail, and problem-solving skills as participants restore stability to malfunctioning systems.

- **3. Cryptography Challenges**
  Participants decode encrypted messages, validate data integrity, and apply symmetric and asymmetric encryption techniques. These tasks introduce practical cryptography concepts and secure communication methods while emphasizing analytical thinking and precision.

By combining these three domains in a cooperative, immersive 2D and 3D environment, Upside Down Protocol provides a challenging and engaging experience where participants apply theoretical knowledge to practical problems and develop critical technical skills.

- B. Tag Line : Hack Hawkins, Master Networks, Defeat Vecna.
- C. Venue : IOT LAB/CTC LAB/IBM LAB
- D. Date & Session: 27/03/2026
- E. Budget: Rs.0
- F. Registration Fee: Rs.100
- G. No. of Target Participants : 200
